

GM12.1

Essential variables influencing geodiversity: contributions to geoheritage in response to global change

Keynote lecture:

Harry Seijmonsbergen, Joe McMeekin, Eline Rentier, Emma Polman, Kenneth Rijdsdijk - *Refining geodiversity variables for monitoring global mining*

Invited presentation:

Luigi Perotti - *GIS and geomatics for hydrogeodiversity assessment of glaciated mountains: examples from the Western Alps (Italy) and the Coast Mountains (Canada)*

Conveners

Zbigniew Zwoliński, Irene Bollati, Paola Coratza, Marco Giardino, Franziska Schrodt

Abstract deadline

15 January 2020, 13:00 CET
