WELCOME TO THE 14TH INTERPRAEVENT CONGRESS IN BERGEN!

The 14th INTERPRAEVENT Congress will be hosted in Bergen, Norway, in May 2020. We want to span a wide spectrum of stakeholders within all fields of natural hazard risk reduction, and welcome a variety of contributions from research to practical applications, policy making, insurance and economic aspects.

We look forward to welcoming you to Bergen!

Natural Hazards in a Changing World

Avalanches, debris flows, floods, landslides & rock falls

The INTERPRAEVENT Congress in Bergen 2020 calls for contributions from a wide spectrum of stakeholders in the field of natural disaster risk reduction. We welcome contributions from scientists, practitioners and students, policy makers at all levels of administration and other stakeholders, such as civil protection or insurance companies. Contributions about any constituent part of the integrated natural risk management and governance cycle are welcome.

Focus will be on integrated management of natural hazards and risks, equally considering causes of disasters as well as measures of prevention, preparedness, response and recovery in the view of global change.

Topics

The Congress will cover a variety of integrated and multidisciplinary research and practical expertise in the field of natural hazard risks. Included are snow avalanches and slush flows, landslides involving debris, sensitive clays, rock falls to rock avalanches, and floods including pluvial floods.

Theoretical studies, new theories and technologies, practical field case studies including best-practice cases and cases with lessons learned, are welcome in order to prevent damages from, and improve the resilience to, future natural disasters. The challenges of climate change and the need for climate change adaptation, environmental and gender issues, urbanisation and spatial planning dilemmas, as well the latest international commitments such as the Sustainable Development Goals 2030 and the Sendai Framework for Disaster Risk Reduction 2015-2030, are topics to be handled in parallel with our joint natural hazards and risks reduction efforts.

Natural Hazards in a Changing World

Target Groups

Practitioners, scientists and decision makers working in the fields of the congress topics.

Program

Oral presentations and posters will be based on experience and findings from practice, innovation and research.

Technical sessions in plenary, excursions, poster exhibition, student paper award and social events.

The technical sessions will be composed of the congress topics and accepted contributions.

Topics

- Risk Governance and Policies
- Data Acquisition and Modelling
- Hazard and Risk Assessment
- Hazard and Risk Mitigation
 - Land use planning
 - Technical measures
 - Nature based solutions
 - Organisational measures
- Emergency Management

Language: English

Call for Contributions

You are invited to submit either an Extended Abstract or a Paper.

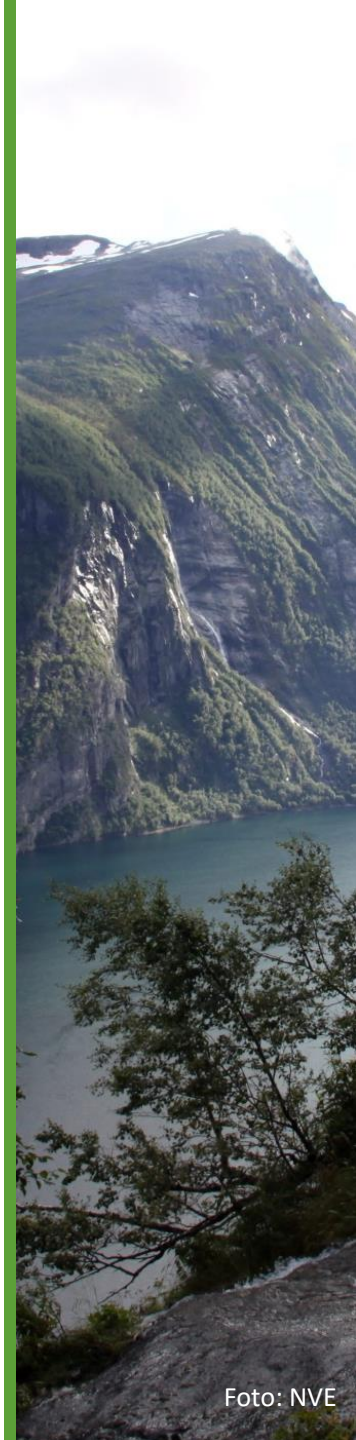

Contributions based on practical experiences will be prioritized.

Case studies should clearly demonstrate what new expertise, knowledge and/or experience that have been gained.

The objectives, results and conclusions should be clearly described.

Please note that all accepted contributions (Extended Abstracts and Papers) will be published in electronic form.

Further information is available at: www.interpraevent2020.no

Submission Guidelines

Extended Abstracts

Please visit the congress website: www.interpraevent2020.no and follow the instructions provided under the tab “Contributions”.

The corresponding author must be indicated in a clear manner. Extended Abstracts are limited to 2 pages (one page counts between 2 500 and 3 000 characters, spaces included), and should include at least one figure or table. Only abstracts in English will be considered.

Please note all Extended Abstracts have to be submitted through the [Editorial Manager](#).

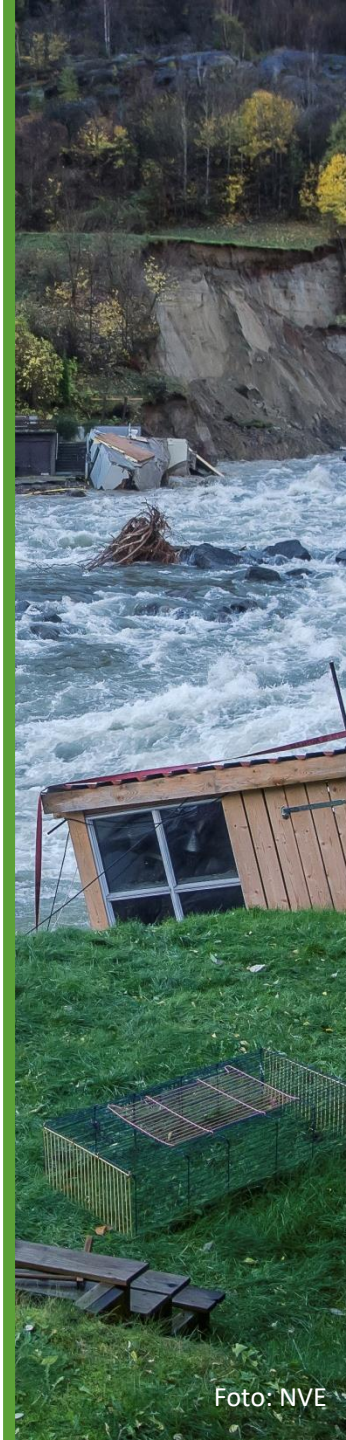

Submission Guidelines

Papers

Please visit the congress website: www.interpraevent2020.no and follow the instructions provided under the tab “Contributions”.

The corresponding author must be indicated in a clear manner. Papers are limited to 6 - 8 pages (one page counts between 2 500 and 3 000 characters, spaces included), and should include a short abstract, tables and figures. Only papers in English will be considered.

Please note all Papers have to be submitted through the [Editorial Manager](#).

Submission Guidelines

Oral Presentation

The oral presentations will be selected from all accepted Extended Abstracts or Papers.

Posters

The authors of all accepted Extended Abstracts or Papers can present their subject as a poster during the congress, if their contribution is not selected for an oral presentation.

Student Award

PhD and master's students (under 30 years of age and registered at an academic institution) are invited to submit a Paper and participate to be selected for a student award.

Registered student papers will be rated by the scientific and technical board before the congress. Five contributions will be selected and the students will be invited (complimentary conference participation; including welcome reception and accommodation, as well as contribution to travel costs) to give a presentation at the conference.

The best presentation will be selected by the conference participants and awarded with 3000 Euros.

Timetable and Deadline

	Start	End
Submission Extended Abstract	01.02.2019	31.08.2019
Submission Paper	01.02.2019	31.08.2019
Acceptance Extended Abstract		30.11.2019
Acceptance Paper		30.11.2019
Invitation Oral Presentation		01.12.2019
Submission final Extended Abstract	30.05.2019	31.01.2020
Submission final Paper	30.09.2019	31.01.2020
Submission Poster	01.12.2019	31.01.2020
Answer Oral Presentation		20.12.2019

Scientific Board

Niki BEYER PORTNER, HydroCosmos SA, Switzerland

Lars Harald BLIKRA, Norwegian Water Resources and Energy Directorate (NVE), Norway

Francesco COMITI, Free University of Bozen, Italy

Ulrik DOMÅS, Norwegian Geotechnical Institute, Norway

Hege HISDAL, Norwegian Water Resources and Energy Directorate (NVE), Norway

Johannes HÜBL, BOKU University, Austria

Tore HUMSTAD, NPRA, Norway

Dominique LAIGLE, IRSTEA, France

Stefan MARGRETH, WSL, Switzerland

Matjaž MIKOŠ, University of Ljubljana, Slovenija

Andreas von POSCHINGER, LfU Ministry of Environment of Bavaria, Germany

Didier RICHARD, IRSTEA, France

Florian RUDOLF-MIKLAU, Ministry of Sustainability and Tourism, Austria

Joseph SCHNEIDER, Technical University of Graz, Austria

Paolo SIMONINI, University of Padua, Italy

Markus STOFFEL, University of Geneva, Switzerland

Takashi YAMADA, MIE University, Japan

Organizing Committee

Roald AABØE, NPRA, Norway

Hallvard BERG, NVE, Norway

Niki BEYER PORTNER, HydroCosmos SA , Switzerland

Erik DUE, NVE, Norway

Odd Are JENSEN, NVE, Norway

Gernot KOBOLTSCHNIG, International Research Society

INTERPRAEVENT, Austria

Heidi Helena LEE, NVE, Norway

Anne Britt LEIFSETH, NVE, Norway

Anders SOLHEIM, Norwegian Geotechnical Institute, Norway

Aart VERHAGE, NVE, Norway
